TASK 1 REPORT

Internship Program — Batch 2026

Submitted By:	Mtech-Web26028
Department:	Full Stack Web Development
Submitted by:	Noor UL Eman
Date:	30,June 2026

1. Introduction

This task was completed as part of Task 2 of the M-Tech Production & Marketing AI/ML Internship Program, Batch 2026. The focus of this task was to design and develop a fully responsive Personal Portfolio Website using HTML, CSS, and JavaScript.

The purpose of this task was to apply foundational web development skills in a practical environment and gain hands-on experience in building a modern, user-friendly, and responsive website. Through this task, I worked on creating a professional personal portfolio that effectively showcases my skills, projects, and contact information while ensuring compatibility across desktop, tablet, and mobile devices.

2. Objectives

The main objectives of this task were:

- To design and develop a responsive Personal Portfolio Website
- To apply HTML5, CSS3, and JavaScript in a real project
- To improve frontend development and UI/UX design skills
- To understand responsive design for multiple devices (desktop, tablet, mobile)
- To gain experience in version control using Git and GitHub
- To deploy a live website using GitHub Pages
- To learn effective use of AI tools for development support

3. Task Description

The task required the development of a fully responsive Personal Portfolio Website as part of Task 1 of the internship program. The website was designed to showcase personal skills, projects, resume, and contact information in a clean and professional layout.

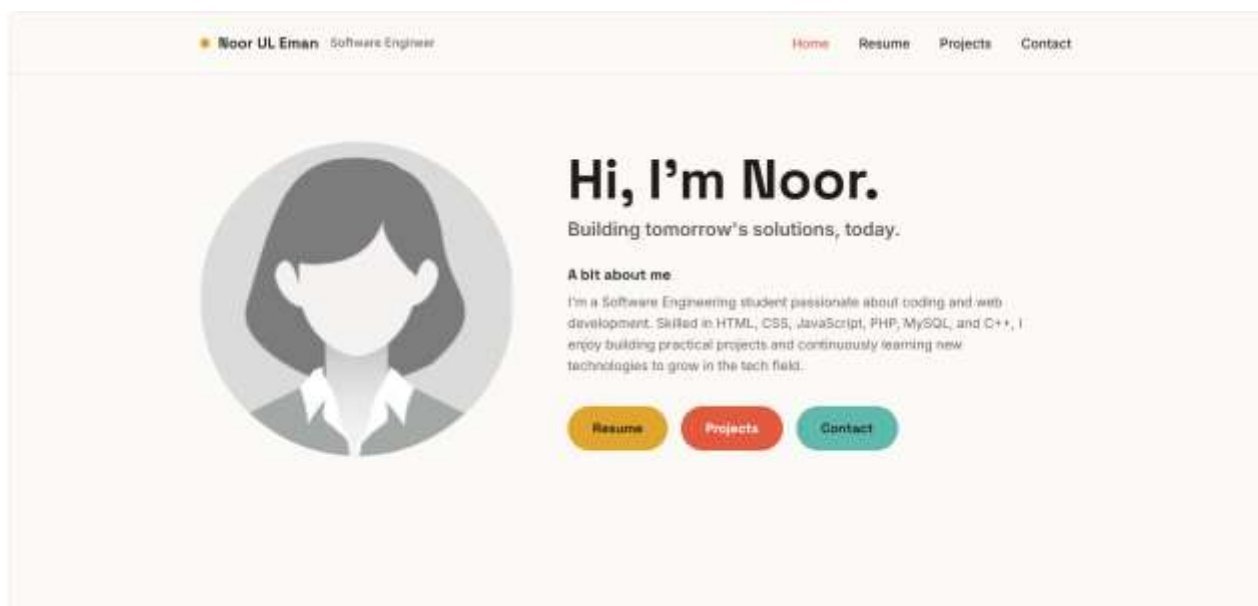

The project focused on building a modern, user-friendly interface with smooth navigation and responsiveness across all devices.

4. Work Done

Successfully completed Task 1 by developing a fully responsive Personal Portfolio Website.

Key work includes:

- Designed and structured the website using HTML5
- Styled the interface using CSS3 for modern UI design
- Added interactivity using JavaScript
- Created responsive layouts for desktops, tablet, and mobile devices
- Developed sections including:
 - Hero Section
 - About / Resume Section
 - Skills Section
 - Projects Section
 - Contact Form
- Implemented smooth scrolling and navigation effects
- Used Git and GitHub for version control
- Deployed the project using GitHub Pages
- Utilized AI tools (ChatGPT, Claude) for learning, debugging, and optimization

● Noor UL Eman

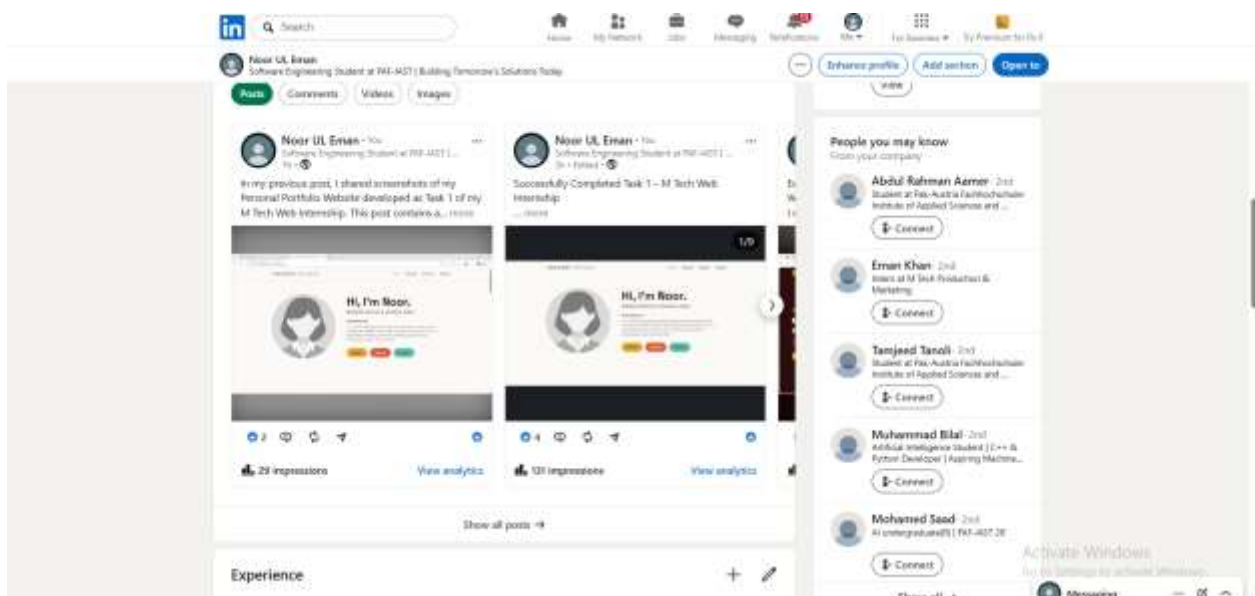

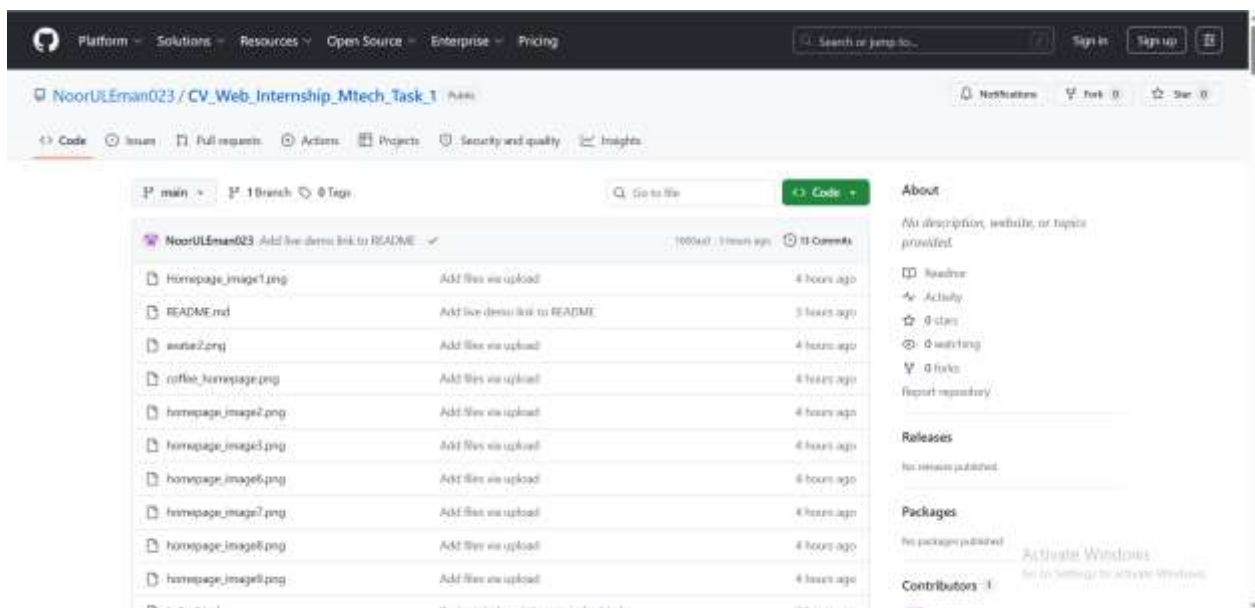

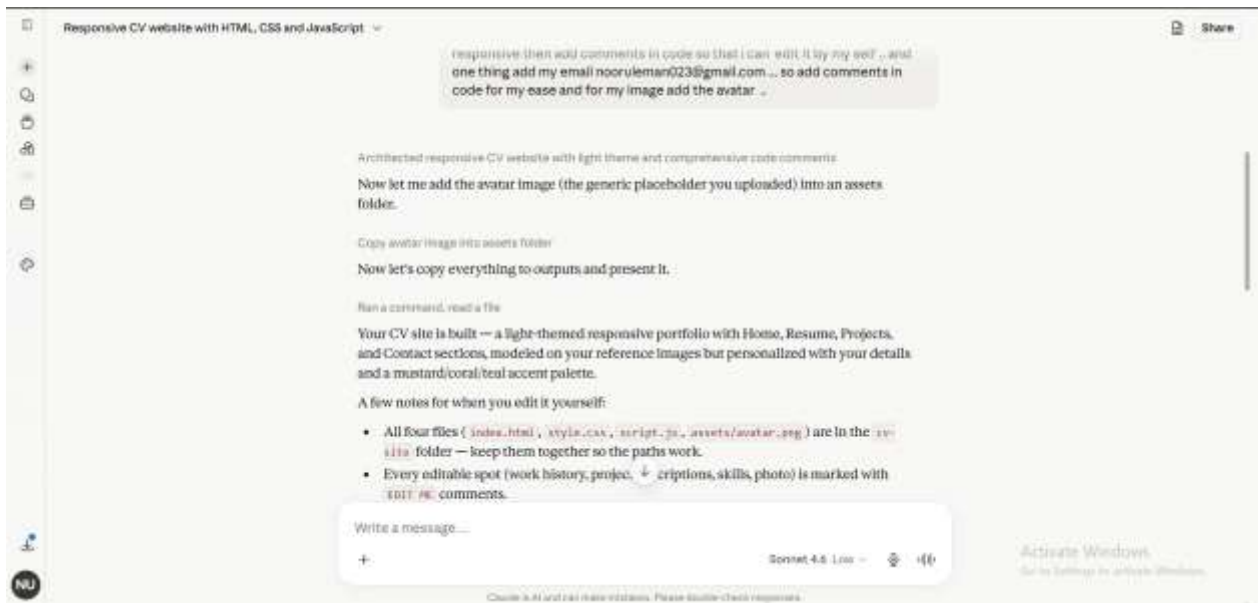

Hi, I'm Noor.

Building tomorrow's solutions, today.

A bit about me

I'm a Software Engineering student passionate about coding and web development. Skilled in HTML, CSS, JavaScript, PHP, MySQL, and C++, I enjoy building practical projects and continuously learning new technologies to grow in the tech field.

5. Challenges Faced

During the development process, several challenges were encountered:

- Designing a fully responsive layout for different screen sizes
- Managing CSS styling consistency across sections
- Debugging JavaScript functionality issues
- Ensuring smooth navigation and user experience
- Understanding GitHub deployment process initially

These challenges were overcome through practice, research, and assistance from AI tools, which helped improve understanding and problem-solving skills.

6. Key Learnings

From this task, I gained valuable learning experiences:

- Strong understanding of HTML5, CSS3, and JavaScript fundamentals
- Practical experience in responsive web design
- Improved problem-solving and debugging skills
- Knowledge of Git and GitHub workflow
- Experience in deploying live websites
- Learned how to effectively use AI tools for development support

- Better understanding of UI/UX design principles

7. Conclusion

Successfully completing Task 2 of the M Tech Web Internship was a highly valuable learning experience. Developing a Personal Portfolio Website helped me apply theoretical knowledge into practical implementation and strengthened my frontend development skills.

This task also improved my confidence in building real-world web projects and using modern development tools and workflows. I am grateful to M Tech Production & Marketing for this opportunity and look forward to completing upcoming tasks, learning advanced concepts, and further enhancing my technical skills.
