# 1. Introduction

## Portfolio Website Project

This report presents the work completed for **Task 4** of the M-Tech Production & Marketing Internship Program. The objective of this task was to design and develop a professional personal portfolio website using HTML, CSS, and Vanilla JavaScript. The website was developed with a modern, responsive, and clean user interface to showcase personal information, skills, projects, and contact details.

---

# 2. Objectives

- Design a professional portfolio website.
  - Practice responsive web development.
  - Improve frontend design skills.
  - Create an attractive user interface.
  - Showcase projects and technical skills.
  - Learn website deployment concepts.
- 

# 3. Task Description

The assigned task was to develop a complete personal portfolio website containing multiple sections including Home, About, Skills, Services, Projects, Resume, and Contact. The website was required to include smooth scrolling, animations, hover effects, responsive layout, project cards, skill progress bars, downloadable resume button, GitHub and LinkedIn links, and deployment instructions.

---

# 4. Work Done

The portfolio website was successfully designed and developed with a modern professional appearance.

The completed features include:

- Responsive Navigation Bar
- Hero Section
- About Me Section
- Skills Section
- Services Section
- Projects Section
- Resume Section
- Contact Form
- Responsive Layout
- Smooth Scrolling

- Hover Effects
- CSS Animations
- Download Resume Button
- GitHub Profile Link
- LinkedIn Profile Link
- Modern UI Design
- Organized Assets Folder
- README Documentation

Special attention was given to creating a clean and premium-looking user interface with an elegant color scheme and responsive design suitable for desktop, tablet, and mobile devices.

---

## 5. Challenges Faced

The following challenges were encountered during development:

- Designing a premium-looking user interface.
- Making the website fully responsive.
- Organizing multiple website sections.
- Creating smooth animations without affecting performance.
- Positioning the profile image correctly.
- Maintaining clean and reusable CSS code.
- Improving overall user experience.

These issues were solved through continuous testing, layout adjustments, and optimization.

---

## 6. Key Learnings

This project enhanced my understanding of:

- Responsive Web Design
- HTML5 Semantic Elements
- Advanced CSS Styling
- Flexbox
- CSS Grid
- CSS Animations
- JavaScript DOM Manipulation
- Smooth Scrolling

- User Interface Design
- Portfolio Website Development
- Project Documentation
- GitHub Repository Management

## 7. Conclusion

The Portfolio Website Project was successfully completed according to the provided requirements. The website effectively showcases personal information, technical skills, and projects while maintaining a clean and professional design. This project significantly improved my front-end development skills and provided valuable experience in designing modern responsive websites suitable for professional portfolios.
