1. Introduction

HabitHub — Testing, Review & Final Improvements

This report presents the work completed on Day 12, the final day of Week 3, for the Full Stack Web Development Internship Program at M-Tech Production & Marketing. The day focused on reviewing HabitHub, testing its functionality, and making improvements based on the issues identified during development.

2. Objectives

- Test the application.
 - Fix UI issues.
 - Review functionality.
 - Improve responsiveness.
 - Finalize documentation.
-

3. Task Description

The assigned task was to execute cross-device screen responsiveness tests, resolve UI alignment issues, refine typography, organize the GitHub code repository, and update technical documentation prior to submission.

4. Work Done

The following work was completed during the day:

- Tested the major HabitHub screens.
 - Checked habit and goal functionality.
 - Reviewed streak and progress displays.
 - Tested community and feed sections.
 - Checked the interface on different screen sizes.
 - Fixed minor UI issues.
 - Improved spacing, typography, and responsiveness.
 - Reviewed the project README.
 - Organized the GitHub repository.
 - Reviewed the project for final submission.
-

5. Challenges Faced

The following challenge was encountered during the day:

- Some UI inconsistencies appeared when testing the application on different screen sizes and required additional adjustments.
-

6. Key Learnings

Through this task, I learned:

- Application testing.
 - Responsive design.
 - Debugging.
 - UI refinement.
 - GitHub repository organization.
 - Project documentation.
-

7. Conclusion

The final day completed the Week 3 development cycle and provided practical experience in building and refining a full-stack habit and goal tracking application.
