1. Introduction

Interactive Org Chart Builder — Testing, Research & Documentation

This report presents the work completed on Day 6, the final day of Week 2, for the Full Stack Web Development Internship Program at M-Tech Production & Marketing. The day focused on reviewing the Interactive Org Chart Builder project, testing its implemented functionality, and improving understanding of areas that still required refinement.

2. Objectives

- Test the project.
 - Identify remaining issues.
 - Review D3 concepts.
 - Improve documentation.
-

3. Task Description

The assigned task was to perform comprehensive testing of the interactive organizational chart across deep hierarchical levels, resolve performance and layout bottlenecks, study export capabilities, and finalize technical documentation alongside repository management.

4. Work Done

The following work was completed during the day:

- Tested the organizational chart with different data.
 - Checked zoom and pan functionality.
 - Reviewed node addition and removal.
 - Watched additional tutorials to clarify remaining D3 concepts.
 - Researched export options for visualizations.
 - Fixed minor UI and layout issues.
 - Updated project documentation and README.
-

5. Challenges Faced

The following challenge was encountered during the day:

- Some issues appeared when the chart became larger and contained multiple organizational levels.

6. Key Learnings

Through this task, I learned:

- Testing interactive visualizations.
- Debugging D3 layouts.
- Documentation practices.
- Identifying performance and usability issues.

7. Conclusion

Week 2 provided practical experience with Next.js, D3.js, hierarchical data, and interactive visualization while progressing the Interactive Org Chart Builder.
